

Spreader Bar for Forklifts

Spreader Bars for Forklift - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader producer all-around the world. They are a dedicated maker of spreaders for a lot of several applications like for instance the handling of containers, swap bodies and trailers.

Engineering is done in-house by utilizing the most up-to-date CAD systems and FEM tools. The ELME company presently has more than one hundred twenty five personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the globe.

The product series of ELME include lots of spreaders used for various trailer and container handling operations. A few of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers and a wide variety of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they created over 1150 spreaders by way of using top quality elements to be able to guarantee reliability and excellent standards while offering competitive prices. Major characteristics of ELME include design simplicity, market feedback and inventive modular spreader concept.
